

ELEVATE QUALITY. SECURE COMPLIANCE.

Turnkey Quality Assurance and Operational Excellence across the entire product lifecycle.

Efor secures your operations, providing strategic QMS implementation, dedicated operational QA, and supplier governance to safeguard patient safety and streamline market access.

YOUR CHALLENGES

REGULATORY PRESSURE How to maintain compliant systems that consistently withstand stringent global health authority inspections?

OPERATIONAL BOTTLENECKS How to eliminate high deviation backlogs and slow batch release cycles without overburdening teams?

VALUE-CHAIN RISK How to secure supplier qualification and manage audits without dedicated governance infrastructure?

OUR APPROACH

01 ASSESS

- Assessment of current quality systems and operational flows
- Compliance and inspection gap analysis across health authority standards
- Tailored QA roadmap and execution plan

02 IMPLEMENT

- Ensure management of deviations, CAPAs, and change controls
- Hands-on batch record review and product release support
- Supplier qualification, quality agreements, and outsourced vendor audits

03 ASSURE

- Continuous inspection readiness and post-audit remediation
- Specialized technical & operational QA hotline
- Transition management and interim QA leadership

YOUR BENEFITS

FASTER PRODUCT RELEASE

Eliminate QA backlogs and compress batch review cycles with structured, right-first-time operational support.

END-TO-END SUPPLY CHAIN CONTROL

Ensure total transparency, qualified vendor integration, and risk-proof quality agreements across your partner network.

PERPETUAL INSPECTION READINESS

Approach global regulatory inspections and Notified Body audits with fully aligned, defensible quality systems.
